Why Do You Need a Church Promo Video?

Why not? One reason people don't go to church is because they have a wrong perception. Because many have never stepped foot in a church they don't know what really happens in church.

If you had an opportunity to speak to thousands of people about all the great things that go on at your church wouldn't you do it? Well you can!

Advertising your church is important because there is a whole neighbourhood who don't know there is a great family life just down the road where they can find real life, relationship and be a part of a great community of people. Simply, promo videos help everyone to know what your church is all about and what happens there.

Placing a promo video onto the church's website or facebook page is a great way of communicating. In the time it takes to boil a kettle a great video can connect with people from one heart to another. We need to tell people who we are, what God has done for us and what we are now doing as a result of all that.

New Day offers a variety of designs and styles to suit and includes motion graphics with video. If you'd prefer to make a video from photographs the church has taken, or want New Day to spend time filming particular events, the choice is yours.

**How
does your
neighbourhood
perceive your church?**
